MRS. HIND MAKES A GAME FIGHT

Miss Hall Wins Ladies' Singles, but Her Opponent Keeps Her Busy.

Yesterday's Tennis Results.

Miss Hall beat Mrs. Hind in the finals of the ladies' singles, 6-2, 6-3. Cunha and Gee beat Brewster and Hoogs, 8-10, 7-5, 6-4.

Miss M. Hall, the crack player from the Pacific Coast, took the Hawaiian championship yesterday afternoon from Mrs. R. Hind in straight sets, 6-2 and 6-3. It looks like a hard beating, but the score can not be relied upon as furnishing a correct summary of the final match. Every point was fought out stubbornly, and the games went from deuce to vantage and back so often that a less competent referee than Dr. Wall would have become muddled.

These two ladies gave an exhibition of real tennis, placing, lobbing and smashing from the net, covering the court and driving to the base line in a manner that called forth round after round of applause from the spectators. It was far and away the best match in ladies' singles that has ever been seen on the Beretania courts, and the rosters followed each point with the keenest interest. The crowd was undoubtedly with Mrs. Hind, but that was only natural, she being a resident of the Territory and playing one of the leading players from the States.

Miss Hall has been a complete revelation to tennis enthusiasts here, her style of play, strokes, service and judgment being far in advance of anything ever seen here before; and, while not wishing to detract from the performance of any cup winners of previous seasons, it is safe to say that she could defeat any lady in the Hawaiian Islands today, and could undoubtedly gain the decision over at least 75 per cent. of the men.

Cunha and Gee defeated Brewster and Hoogs in rather hollow fashion. The latter team put up a game fight, but were somewhat outclassed, and the match was decidedly one-sided. Young Hoogs is undoubtedly a clever youngster and will bear watching in future events. Brewster played well at some stages of the game, but was decidedly erratic.

The match in gentlemen's doubles between Deerr and George Waterhouse against Will Roth and W. W. Williamson furnished plenty of excitement. The first set was a crackerjack and went to five-all, six-all, seven-all and eight-all, at which stage Waterhouse won his service and he and his partner broke through their adversaries' delivery on the next game, winning first blood 10-8.

The second set was also hotly contested and at one time it seemed certain that Waterhouse and Deerr would win two straight, but Roth and Williamson kept plugging along and finally won out, 7-5. It was almost dark when Roth and Williamson took the rubber set, but only after another fiercely contested battle, at the finish of which all four players were apparently all in. The final score was in favor of Roth and Williamson, 8-10, 7-5, 6-4.

Today the finals in mixed doubles will be played at 4:15 p. m. between F. E. Steere and Miss M. Hall and "Sonny" Cunha and Mrs. R. Hind, and will furnish a contest well worth witnessing. The handsome prizes will be on exhibition today at the grounds, and are worth the strenuous efforts put forth by the eventual winners of the trophies. Promptly at 4 p. m. Roth and Williamson will play McKeever and Greenfield from Ewa plantation. The latter are a

strong team, and with the well-known ability of their opponents a grand match can be anticipated. All tennis enthusiasts are invited to be present. On Saturday at 4:15 the finals in gentlemen's doubles will be decided between Cunha and Gee and the winners of today's match.

MARINES BEAT FORT SHAFTER

The Marines slipped it to the Road-pounders in a friendly game of ball at the Athletic park yesterday afternoon by a score of 6 to 3. Both teams played a lively game and the Half-wets had no easy job to double up on the Infantry kids.

The feature of the game was the appearance of Lieutenant Kilgore at first base for the Marines. This officer man played a dandy game and let not a single high one go by him, being credited with no less than 17 putouts out of the 27.

Another feature was the first appearance of Peyton in the box. Gibson went to left field and gave the new man a chance at the twirl dope. Peyton made good and shored out a very interesting line of curves with some hard downdrops that had the Roadpounders guessing what was coming next.

The Half-wets accounted for two in the second with three bingles and a steal. Fort Shafter came back with one in the third but the Marines made two more in the second half of that inning with one each in the fourth and fifth. The Road pounders made a noise like getting even in the sixth when they made two more but that was all the scoring.

The lineups with runs scored were: Marines—Sloop, ss; Hayes, 2b; Gaw, 3b (1); Davis, cf; Peyton, p (2); Kilgore, 1b(1); Gibson, lf (1); Thompson, rf (1); Williams, c. Fort Shafter—Green, (1); McCall (1); Boulton, Strauss, Heston, Grant, Spicer, Liles, Yager (1).

Athletic Park Notes

The Dragonlets are up against the Half-wets on Sunday again. They slipped the anchor chains over the bits on the canvas kids last time. Can they do it again?

The second game at the Athletic Park on Sunday will be between them there Boers and these Japs. A slight mistake was made in the headlining of last Monday morning's story in the Advertiser. It stated that the Boers had a cinch on the first series. The Japs have a chance.

If the Japs win the game on Sunday and beat the Marines a week from Sunday, then, if the Half-wets hand it to the Boers in the nineteen-inning game tie play-off, the Japs will be at the head of the list.

Gibson took a rest yesterday afternoon in the game with the Roadpounders and went to the outfield. Peyton pitched a mighty good game and has shown that he will be a good alternate for Gibson in case kokua is needed.

The Japs have a fine double for the box on Sunday. They have the King of Spain and Johannes di Flores. This is a combination that is hard to beat.

If Lieutenant Kilgore plays first base for the Half-wets on Sunday, it may look kind of fierce for the Dragonlets. Mr. Kilgore made his first appearance on First Avenue yesterday and stopped all the cars that came his way. The motormen said that he was a nuisance but the men that played with him said that he was Zoosooroffaroo. (Which being translated from the original Copie into United States, means "A good one.")

PROMOTION WORK BOOMING ALONG

(Continued from Page One.)

may be obtained by unpleasant means, such, for instance, as the recent strike. It is probable that several hundred thousand more columns of newspaper space have been given to Hawaii in the past few months than ever before. During this period, the Pineapple Growers' Association has been conducting a well organized and effective campaign of publicity, their attractive advertisements appearing simultaneously in the leading monthlies and weeklies throughout the country. Clever interviews and general write-ups also appeared in the daily press.

The development of Hawaii as a military stronghold is also attracting attention the world over.

The Hawaii exhibit at the Alaska-Yukon-Pacific Exposition is proving a great factor in rousing the Northwest to the attractions and advantages offered by the Islands.

During all this time and for several years past the Hawaii Promotion Committee has been steadily carrying on its propaganda. "Hawaii for health, pleasure and profit" being the slogan adopted until at last "A trip to Hawaii" had been developed and inasmuch as every visitor returns to the Islands the ripple of discontent with less pleasant surroundings is spreading and those living in the lands of hot summers and blizzard winters are coming to realize at last that one does not have to succumb to sunstroke or freeze to death in order to enter Paradise; the modern way of getting out of the Valley of Discontent into the Land of Happiness being afforded by a trip to Hawaii. Once bare and cheerless Diamond Head is passed, a region of enchantment is before the traveler and what is best of all, there will be no disappointment, for Hawaii never disappoints.

The activities of the committee have been many and constant during the past year and it is a pleasure to be able to report that in no similar period have the evidence of success been so thoroughly satisfactory.

The distribution of folders during the past twelve months included:

50,000 Primers.
80,000 General folders.
60,000 Aloha postals.
25,000 Special.
20,000 Guides to Honolulu.
40,000 Guides to Kauai, Oahu, Maui and Hawaii.

75,000 Climatic leaflets.
25,000 Agricultural folders.
A total of about 375,000 or upwards of 1000 pieces per day for each day in the year, these have been distributed over our counter, by mail and express, while large shipments have been made to the mainland by freight and then carefully redistributed.

While this distribution represents a large expenditure and is all that our means has permitted, we could, with advantage, place ten times this number of folders annually and then but partially cover the United States and Canada.

Besides the matter enumerated, we have sent out about 75,000 copies of our weekly news sheet, 40,000 circular letters, 25,000 postal cards, besides several thousand copies of marked papers. These have gone all over the world. There is not a public library in the United States or Canada, not an American Consulate even in the most out of the way place where the latest information concerning Hawaii may not be had.

With each edition, we have endeavored to improve our folders, not attempting anything but the way of elaborate expensive souvenirs but confining ourselves to attractively illustrated, carefully edited pamphlets containing just such information as experience has taught us that the public is seeking.

Among other special publications recently got out is a leaflet in English, French and German which we are distributing at Colombo with good effect. We believe this particular piece of work will materially increase stopovers on the part of transpacific travel from the Orient.

Fred Haskin's intensely interesting description of Hawaii we had printed

on a special mailing card and sent out to some 10,000 railway and steamship passenger agents throughout the United States and Canada.

The distribution of the Crossroads of the Pacific map has been continued until today there is scarcely an excursion bureau, steamship or railway office the world over on whose walls the map may not be found.

Probably the circular letter, quickest to bring results, was the one we sent out to some one thousand physicians throughout the United States and Canada, calling attention to our unrivaled climatic and health conditions. To this letter, a great many replies have been received.

The new edition of Guide to Honolulu and the guides and maps of the Islands of Kauai, Oahu, Maui and Hawaii have been in great demand and while the first Island Guides were more or less imperfect, errors are being eliminated and future editions may be expected to come up to the high standard we have adopted for all of our publications.

The special folder in re opportunities for study in Hawaii which we sent out to a selected list of ten thousand teachers has proved very effective; a number of teachers have been spending the summer in Hawaii as a result of this effort and we believe that it is going to result in an increasingly large exodus of mainland teachers to the Islands during the summer months in the years to come.

The distribution of the 1909 Floral Parade poster was well arranged, but we have completed plans for a much wider and more effective distribution of the poster advertising the 1910 Floral Parade. This poster was probably completed by the end of August and inasmuch as the European distribution will be made for us by Mr. Harry Mist, it is probable that the posters are even now going out, each lot being accompanied by a special letter prepared and sent on to Dresden some time since. Besides securing a thorough distribution of the poster, we hope by the plan pursued to get more closely in touch with European tourist bureaus, hotels, railway and steamship offices.

Among other pamphlets sent out during the past year were a large number of copies of Governor Peary's most valuable annual report, also the report on Home Making in Hawaii by Mr. F. H. Newell of the Reclamation Service of which we have distributed fully five thousand copies.

I am deeply gratified at being able to report that more and more of our own people when making trips away take with them a full supply of folders for which they invariably find a great demand. A large number of addresses are also being handed in from day to day by residents of Hawaii which is a material help to us in our work of advertising Hawaii's attractions abroad.

The current receipts of the committee for the year amount to \$18,662.31; exceeding the expenditures \$17,730.25, by a difference of \$932.06.

We have had representatives at the different National Conventions who kindly distributed large quantities of folders descriptive of Hawaii.

Mr. W. H. Babbitt did excellent work along this line at the Irrigation Convention at Spokane.

The Rev. Naikuna distributed a vast amount of matter at the last annual meeting of the Christian Endeavor Society and we are now cooperating with this gentleman in an endeavor to bring the 1915 Convention to Honolulu.

Mr. W. A. Bryan did splendid work for us at Philadelphia, both in lecturing and by the distribution of folders in efforts to bring to Honolulu the 1910 Convention of the American Association for the Advancement of Science.

Through the courtesy of the secretary, Mr. Francis, a careful distribution was made of our matter at the 20th Annual Session of the Trans-Mississippi Commercial Congress just concluded at Denver.

We have been represented at other conventions besides numerous state fairs and similar gatherings.

Mr. Paul Super, secretary of the Y. M. C. A., did some splendid promotion work while absent on the mainland.

Mr. Charles A. Bon has been at work at Cheyenne and elsewhere.

Many other names might be cited of those who have done effective work for Hawaii while on trips for business and pleasure.

During the period covered by this report, numerous lecturers have told the story of Hawaii in all to many hundreds of thousands of people. Interesting articles on the Islands, by writers of note, have appeared in a multitude of publications.

Our relations with other bodies engaged in lines of work similar to ours have been most cordial. It is doubtful if there is another organization sustaining reciprocal relations with so many Tourist Bureaus, Chambers of Commerce, Merchants' Associations, Promotion Committees and similar institutions as the Hawaii Promotion Committee.

We are in close touch with all such organizations throughout Australia, New Zealand, India, Java, China, Japan, the mainland of the United States, Canada, and many parts of Europe.

By this exchange, we are able to offer reliable data relating to all parts of the world, which is much appreciated by transpacific travelers, many of whom call at our office.

Our library of directories, now containing upward of one hundred volumes, also proves a convenience to the traveler as well as to the resident of Hawaii.

The News Sheet, which has been so well edited by Mr. Will J. Cooper during the past year, has proven to be a most successful means of disseminating reliable information concerning Hawaii, and I regret sincerely that the committee finds it necessary, for financial reasons, to discontinue this branch of its work; yet, if the saving we are able to effect from the discontinuance of this service will enable the committee to launch its plans for advertising Hawaii at Atlantic City next year, we will probably secure even better results.

The success of the sales department of the Hawaii exhibit at Seattle affords ample evidence that the Atlantic City venture will prove a profitable investment.

During the past twelve months, we have been able to turn much more travel than formerly to the different islands, largely owing to the fact that not only Hawaii, but Maui and also Kauai have each installed a reliable and reasonable automobile service. Through the efforts of the committee, the trips to the crater

FREE LECTURE: Sunday afternoon, at 3 o'clock, Hawaiian Hotel
lanai. Subject: "Where Are Heaven and Hell Located?"

Classes now forming in the occult and new thought. For full particulars call on Dr. and Mrs. Bell at the Royal Hawaiian Hotel, Suite 40, 42 and 44. Hours 10 to 5 and 7 to 9. Sundays only by appointment; also by phone 715 any day.

of Haleakala and Iao valley on Maui have been included in the Inter-Island Steam Navigation Company's coupon tickets, the cost of the trips being reasonable, and the service excellent.

The work of the committee at Los Angeles has proved most successful. No one part of the mainland sends as many visitors to Hawaii as Southern California, and the number is constantly increasing. Mr. Lloyd Childs did good work at the head of this bureau, and now Mrs. Headlee, Mr. Childs' successor, is doing equally well, especially since her visit to the Islands. The audiences at Mrs. Headlee's daily lectures fill the room to overflowing.

The entertainment afforded the newspaper men from Australia and New Zealand by the Promotion Committee has resulted in much good publicity. The few dollars spent in the entertainment of the eminent naturalist, Mr. John Burroughs, during his visit to Hawaii will also prove to be an excellent investment.

The addresses given before the committee on subjects of general interest, such as the talks on fruit possibilities by Mr. Higgins and the cotton outlook by Dr. E. V. Wilcox, both of the Agricultural Experiment Station, have been a source of benefit to the public.

In an effort to create new industries, quite a consignment of the seed of the rattan of commerce was obtained from Java and is now being grown at the Agricultural Experiment Station.

Several efforts have been made to secure fertile seed of the grass from which the best Panama hats are made and we now have reason to expect a consignment of seed from Ecuador within the next month or six weeks.

An excellent piece of work recently accomplished by the committee resulted in getting the big map makers, Hammond & Co. of New York, to overprint their map of the world with special data relating to Hawaii; 200,000 copies of these maps will soon be in circulation.

The effort made by the committee to get the different Atlantic and Pacific steamship companies, as well as the transcontinental railways, to include books on Hawaii in the libraries on board the steamships and trains is meeting with splendid success.

We have also received much encouragement in getting the leading dealers in lantern slides, etc., throughout the world to include sets of Hawaiian views in their stock of such goods. We hope soon to supply all of these houses with two or three twenty-minute lectures on Hawaii.

During all of the other work, the possibility of excursions to Hawaii has not been lost sight of and today the prospects are most encouraging for two, if not three, large excursions to Hilo and Honolulu the coming winter.

Travel to Hawaii last winter surpassed that of any previous winter and much to the surprise of all, there has been no let up even during the usually dull months of summer. Everything points to a still heavier travel for next season.

As an example of the heavy work of the office, by the Lurline, sailing today, we are despatching a large shipment of advertising matter by freight, besides fully one thousand letters and packages of folders through the mails. The freight shipment is for redistribution at San Francisco and will be largely used in renewing our supply of folders at different points on the mainland.

During the past year, the members of the committee have met regularly each week, besides giving much of their time on other days to an earnest united effort to advance the best interests of Hawaii.

Respectfully submitted,
H. P. WOOD,
Secretary.

Honolulu, September 2, 1909.

CARPA IS ON TRIAL, TONG KIT IS GUILTY

The trial of Pedro Carpa, who is charged with assault with a weapon imminently and obviously dangerous to life was commenced in Judge De Bolt's court before a jury yesterday morning but was not concluded.

The jury in the case of Tong Kit, charged with a similar offense, returned a verdict of guilty and Judge De Bolt sentenced the prisoner to twenty-three months' imprisonment in Oahu jail. Tong Kit has a bad record, which did not make things easier for him when the judge came to pass sentence.

JUDGMENT BY DEFAULT.

Judge Whitney yesterday gave judgment by default for the plaintiff in the case of W. E. Shaw versus John F. Colburn, executor of the estate of David Kawanakoa. The plaintiff sued for \$283.85, with interest, costs, etc.
